skateone™

SUMMER 2003 PRODUCT CATALOG

POWELL®

Powell Decks *are constructed from 7 plys of hard rock maple, AirLam™ fused with waterproof Type I glue, and sealed against moisture with a water base acrylic semi-gloss finish. Sublimated graphic decks are coated with our SST™ slide treatment for longer slides. Silk-screened decks are top coated with a final clear coat to add additional protection to the multi-layer ink coating. Powell decks are warranteed against delamination for the useful life of the deck.*

Brite-Lite Construction - *A deck is made lighter by either using a lighter material or using less material (as in thinner). Lighter woods don't last as long as hard rock maple, and just making a deck thinner can make it both too flexy and weaker. Increasing the concave of the deck, however, makes the deck stiffer and increases its pop. By using K-12s extra stiffness to offset a 5% reduction in the total thickness of Brite-Lite decks, we have been able to shave a few more ounces off an already light deck, which also increases its pop.*

Tough-Ply Construction *is a slightly thicker deck that resists breakage a bit more than our Brite-Lites. If you're going to jump off a building it's better to do it on a Powell Tough-Ply deck.*

Powell Classic Decks - *With the construction of so many new skate parks in recent years, there has been a growing demand for classic shapes and graphics. We offer these seven decks to give the experienced skater some choices he can relate to. Although the graphics may come from yester-year, these decks are no wallhangers. All Powell Old School decks are made using our contemporary K-10 mold to be fully functional assault weapons.*

Special application wheels *At Powell we believe there is more than one type of skateboarding, and our wheel line reflects this. Our Softie Series wheels are conventional street shapes poured in a softer durometer. These are ideal for beginners and skaters dealing with rougher terrain. Check out the new Bowl Bombers, an old school approach to pool and vert situations. For the more contemporary bowl skater, we have Bowlriders, great for the skatepark! Our Wings Cruiser line is great for longboarding, and the smaller Bat Wings cruiser is perfect for slalom or filmer board set-ups. Powell makes wheels for every type of skateboarding, period.*

MINI•LOGO™ DECKS

Mini•Logo™ Decks are manufactured from the same raw materials and in the same unique "AirLam" presses as our top of the line Powell decks. The only difference is the graphics. We offer the most popular shapes and concaves at a fraction of the price, with a life-long warranty. MiniLogo decks come in seven assorted full-length roll-coated colors with an added layer of SST super slide treatment. Mini•Logo decks are truly "the best for less."

Shape	Concave	Width x Length	Wheel Base	Nose	Tail
#143	K-12s	7.375" x 29.375"	12.75"	6.375"	6.0"
#92	K-12	7.375" x 30.875"	13.5"	6.875"	6.25"
#124	K-7	7.5" x 31.375"	13.875"	6.75"	6.5"
#124	K-12	7.5" x 31.375"	13.875"	6.75"	6.5"
#52	K-12	7.5" x 31.625"	14.0"	7.0"	6.375"
#138	K-12	7.5" x 31.875"	14.0"	7.0"	6.625"
#126	K-7	7.625" x 31.5"	13.75"	6.875"	6.625"
#126	K-12	7.625" x 31.625"	13.75"	7.0"	6.625"
#104	K-7	7.625" x 31.625"	14.0"	6.875"	6.5"
#132	K-12	7.625" x 31.75"	14.125"	7.0"	6.375"
#46	K-12	7.75" x 31.25"	13.875"	6.75"	6.375"
#112	K-12	7.75" x 31.75"	14.0"	6.875"	6.625"
#146	K-i11	7.75" x 31.375"	14.0"	6.75"	6.375"
#125	K-i11	7.875" x 31.625"	14.0"	6.875"	6.5"
#113	K-12	7.875" x 32.0"	14.25"	6.875"	6.625"
#100	K-12	8.0" x 31.875"	14.125"	6.875"	6.625"
#127	K-12	8.0" x 32.125"	14.375"	6.875"	6.625"
#114	K-i11	8.125" x 32.25"	14.375"	7.0"	6.625"
#99	K-8	8.5" x 32.0"	14.125"	7.0"	6.625"

K-7 Concave: Mild, smooth concave. Mellow nose and tail.
Ki11 Concave: Deep concave. Flat nose and tail.
K-12 Concave: Deepest concave. Steep flat nose and tail.
K-12s Concave: Deepest concave. Steep flat nose and tail & short wheelbase for smaller skaters.

SUPERLIGHT™ DECKS

MiniLogo SuperLight™Decks are thinner and lighter than our regular MiniLogo decks with a deep K-12 concave to keep them stiff. The bottom is coated with a full length solid ink color in red, black, silver or white with our SST™ super slide treatment for extended slides.

** Highlighted shapes on the chart to the right are available in SuperLight construction.*

MINI•LOGO™ BEARINGS

64 set bulk box (512 bearings)

32 set bulk box (256 bearings)

Mini•Logo Bearings are skate rated, precision 608 bearings made to Skate One specifications.These bearings were designed for skating, not electric motors.They have a removable rubber shield on one side, a removable metal shield on the other, a high speed, molded ball retainer, precision ground and super-finished, hardened chromium steel races and balls, and come pre-lubricated with Bones Speed Cream. This makes them smooth, fast, easy to install and maintain. Mini-Logo bearings, twice the performance and half the price you would expect.

MINI•LOGO™ WHEELS

Mini•Logo™ Wheels: Top quality, high performance urethane, simple graphics, and a popular range of shapes, sizes, colors and hardnesses. Performance and value, guaranteed.

BONES BEARINGS®

Bones Swiss bearings have the best reputation in the skateboard industry, and have had this honor for the past 20 years because of their performance and quality. Everyone who rides Swiss knows how fast they are, and most also comment on how long they last, typically several times as long as low cost bearings. Skaters who use Bones Swiss do so because they want the very best equipment they can get and they know the difference between ordinary and exceptional. Check out our bearing team, it is a who's who of top skaters and we are proud to be associated with each one of them.

SURF ONE®

Surf One™ is happy to offer the limited edition Robert August longboard skateboard. Robert August is known for the legendary film "Endless Summer" and the sequel, "Endless Summer II" in which two vagabond surfers sojourned around the world in search of the perfect wave. For the past three decades Robert August has created classic longboard surfboards. Now he blends his classic longboard look with Surf One's design and production capabilities to create the limited edition Robert August skateboard.

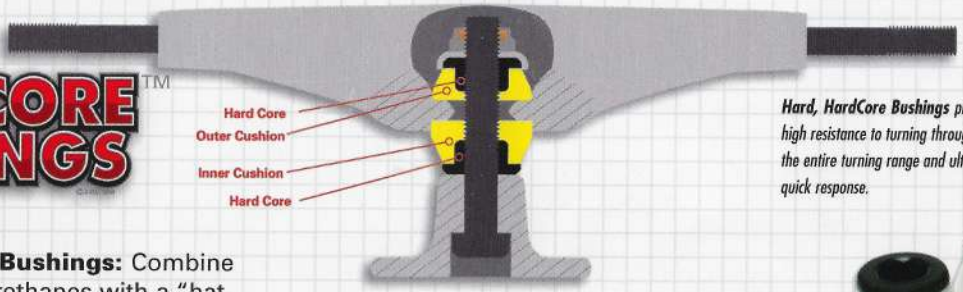
HARDCORE BUSHINGS™



Bones HardCore™ Bushings: Combine legendary Bones® urethanes with a "hat-shaped" rigid insert to create the first and only "double action" bushing. Many top pro and am skaters replace their ordinary bushings with HardCores because they provide a smoother, quicker responding, more controllable, stable ride on any truck you install them on. The positive response from hardcore skaters inspires us to continue improving our bushings to compliment skate styles and preferences. As a result, HardCore Bushings are now higher rebound and slightly harder than before. These two improvements make them even quicker responding and smoother.

The three hardnesses are tuned so that most street skaters will choose medium for all around skating, and hard if they want maximum stability. Soft HardCores are intended for small skaters, longboarding, and those who normally ride very loose trucks.

Large P.O.P
Holds 32

Small P.O.P
Holds 10

Hard, HardCore Bushings *provide high resistance to turning throughout the entire turning range and ultra quick response.*

Medium, HardCore Bushings *are formulated for the majority of skaters who already have good control of their board and just want quick, positive response, centering, and the control to skate anything or anywhere.*

Soft HardCore Bushings *provide very easy turning, quick, smooth response and good centering. We recommend them for skaters who like their trucks loose, but not "floppy." Also longboarders and little skaters for whom a soft HardCore will feel like a medium or firm bushing.*
